Instructions

- Forms are distributed to districts, charter schools, and private schools upon request. Forms can be requested by contacting the Utah State Board of Education (USBE), Adult Education, <u>Kimberly.Grimes@schools.utah.gov</u> 385-295-7880.
- The form is required for students aged 16-18 whose class has not graduated who are considering entering an adult education program or taking the GED[®] Test.
- Students must meet with a school official (usually a school counselor) to obtain the form.
- > The form assures that:
 - The student and parent have been counseled about their educational options and the potential consequences associated with their decisions.
 - A student enrolling in adult education or taking the GED[®] Test is formally withdrawn from the public K-12 education system; and
 - Parental permission has been given to take the GED[®] test or enroll in adult education.

Section 1

- > The student must sign Section 1 while meeting with the school official.
- The school official will fill out the section that says, "To be completed by school personnel," including the School District Code, School Number, and Student's District Number. The district and school code are state codes assigned by the USBE.
- The school counselor will sign the form indicating counseling has been provided to the student on the potential educational consequences of this decision, including that students who pass the HSE exam cannot return to a K-12 school for any reason.
 - Note: This does not pertain to students who have a current special education IEP as a GED[®] does not end the student's access to a free and appropriate public education under IDEA.
- The principal or designee will sign the form to verify the student has completed the LEA's K-12 withdrawal process. School officials can sign the form for students living within their boundaries that aren't currently enrolled in any Utah K-12 school or LEA as verified through the SSID system.
- The parent/guardian will sign Section 1 indicating they understand and accept the consequences of this decision.
 - Note: A parent/guardian signature is not required for students who are married or emancipated.

Section 2

- > The student and parent/guardian must sign in Section 2 if the student is intending to take the GED[®] Test.
- > The student will need to begin the registration process for the GED Test online at GED.com.
- The student will bring the completed form to a state-sponsored adult education program to enroll in adult education and/or to remove the alerts on their GED account. The student can access the Utah Adult Education Program Directory at <u>schools.utah.gov/adulteducation</u>.

Section 3

If the student is 16 and desires to take the GED[®], the student must provide proof of academic readiness to a state-sponsored adult education program. If the student doesn't provide proof of academic readiness, the adult education program will administer an academic assessment to validate that the candidate is academically ready to take the GED[®] Test. This does not guarantee that the candidate will pass the GED[®] Test.
